FROM "THE BULLETIN OF THE JEWISH CONGREGATION OF ST.MARTIN"
SEPTEMBER 1960 EDITION**

EDUCATION

We are pleased to announce that registration for Hebrew Kindergarten and Nursery classes have now been completed, and 130 children have been enrolled! There will be 3 Hebrew classes weekly for each grade of 1½ hours each. We were fortunate to enroll teachers from our own community. They are: Mrs. Bernice Berbrier, Mrs. Claire Leaman, Mrs. Paula Blaichman, Mrs. Barbara Dumansky, and Mrs. Margaret Schramm. Our Rabbi will act as Principal and will also teach more advanced pupils. For information call the Rabbi at MU 1-2452 or MU 1-4595

CREDIT WHERE CREDIT IS DUE

We are singling out a group of members who join us regularly for minyonim every day for special mention, because of their devotion and faithfulness to our Synagogue:
Nathan Feffergrad / Irving Wiseman / Norman Modlin / Issie Caron / Moe Caron / Marvin Katz / Solly Huberman / Israel Segal / Sam Sculnick / Sam Byer / Mr.Esser

SIMCHAS

We are proud to announce the following Bar Matzva celebrations at our Synagogue:
Ronny Burnett, Frank Schwartz and Jack Kirschner.

MAZAL TOV TO THEM AS FUTURE SUCCESSFUL JEWISH CITIZENS OF OUR COMMUNITY

WELCOME TO OUR COMMUNITY

We are indeed fortunate that two young doctors have decided to take up residence in St.Martin. Both will have offices at 1039 Notre Dame. Dr.Rubin M.Feldman received his BSc from McGill and is married to Minnie Bistritsky. They moved to France where he attended medical school at the University of Montpellier, while his wife worked as a teacher. They have a son who was born in France. Upon their return, he interned at the Jewish General and the Queen Mary Veteran's Hospital. He is assistant resident in medicine of the University Medical Clinic which is a research unit of the Montreal General Hospital. He is also on staff at the Jean Talon Hospital. Dr. Sidney Feldman is not related to Dr. Rubin Feldman. He attended Folk Shule in Montreal until he was 16, and he speaks Hebrew fluently. He attended McGill University where he received his BSc. He is single and he also went to France to study medicine at the Universite de Paris. In 1953 he went to Israel with a group of French students. He stayed on when the rest returned to France , where he worked at Mishmar Hanegev and at K'far Saba Hospital. Upon his return to Montreal in 1955 he interned at the Jewish General. From there he went to Florida and spent a year at the Orange Memorial Hospital in Orlando. From there he spent a year at the famous Cleveland Clinic, and upon his return to Montreal he spent a year at the Queen Mary Veterans Hospital. In 1959 he wrote a paper on diabetes in pregnancy which was presented to the Universite de Paris. He is also a teacher at McGill in internal medicine. They will be on call to our community 24/7 and are equipped to handle any emergencies.

WE ARE THRILLED TO WELCOME THEM TO OUR COMMUNITY, AND WISH THEM SUCCESS!

(**Yashor Koach** to Fred Rudy for providing us all with these memorable historical moments, which some of us may still remember!)
